**RECORDING REQUIREMENTS FOR
NO FURTHER REMEDIATION LETTERS**

Introduction

The Illinois EPA's Bureau of Land (BOL) issues a No Further Remediation (NFR) Letter at the completion of site remediation activities under the LUST Program and the SRP. The letter signifies that 1) the person conducting remediation has satisfied the respective BOL laws and regulations, and 2) that no further remediation is necessary to protect human health and the environment for the property described in the letter, so long as the site is used in accordance with the terms of the NFR letter.

Significance

When properly recorded, the NFR Letter holds legal significance for all applicable parties outlined in the Illinois Environmental Protection Act for the program in question. (See 415 ILCS 5/57.10(d) and 58.10(d).) However, if not properly recorded, the NFR Letter *holds no legal significance for anyone*. Furthermore, if not properly recorded, the Illinois EPA will take steps to void the NFR letter in accordance with the regulations pertaining to the program under which the remediation was performed.

Duty to Record

The duty to record the NFR Letter is *mandatory*. You *must* submit the letter and Environmental Notice to the Office of the Recorder or the Registrar of Titles of the county where the site is located *within 45 days after receipt of the letter*. You must record both the NFR Letter and the Environmental Notice. Both must be recorded in accordance with Illinois law so that it forms a permanent part of the chain of title to ensure current and future users of the property will be informed of the conditions of the institutional controls. A certified copy of the letter and Environmental Notice as recorded must be sent to the Illinois EPA. Failure to record the NFR Letter and the Environmental Notice in accordance with the regulations will make the letter voidable.
