#### 4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Chrain Dutes

The interest rate I will pay may change on the first day of January . and on that day every 12th month thereafter. Each date on which my interest rate could change is called a "Change Dato."

(B) The Index

Beginning with una first Change Date, my interest rate will be based on an index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of 1 year, as made available by the Federal Reserve Board. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information. The Note Holder will give me notice of this choice.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.
