WHEREAS, petroleum hydrocarbons may be present on the Property;

WHEREAS, the Parties desire to investigate and, if necessary, perform UST abandonment or removal and/or remediation of petroleum hydrocarbons to bring the Property into compliance with applicable law; and

WHEREAS, Licensor is willing to purchase the Property with full knowledge of the presence of actual or potential subsurface petroleum hydrocarbons.

NOW, THEREFORE, in consideration of the sale of the Property from Equilon to Licensor, and the mutual promises and considerations stated herein the Parties agree as follows:

1. Grant of License. Licensor hereby grants a nonexclusive irrevocable license from the date of this Agreement to Equilon, its employees, authorized agents and contractors to enter the Property to perform all monitoring well installations, tests, inspections, borings, engineering studies, surveys, appraisals, environmental studies, remediation operations and/or other activities hereinafter referred to as "Corrective Action" that Equilon deems necessary to (a) perform and comply with its obligations, if any, under (a) the Purchase and Sale Agreement, and (b) all applicable federal, state and local statutes, regulations, ordinances directives, orders and standards for abandonment or removal of USTs and Corrective Action related to USTs. If Licensor fails to provide reasonable access to Equilon, or Licensor unreasonably interferes with Equilon's activities on the Property, such failure shall constitute waiver of any right, claim or cause of action Licensor may have against Equilon, to perform or continue Corrective Action on the Property. Such waiver shall not constitute the sole remedy for breach of this provision which remedies may include without limitation, consequential damages.
2. Environmental Investigation and Remediation. For as long as this Agreement remains in effect, Equilon, at its sole expense, agrees to conduct the Corrective Action, if any, required of it under the Purchase and Sale Agreement in accordance with all applicable federal, state and local statutes, regulations, ordinances and standards; however, Licensor agrees Equilon is under no obligation to Licensor to remedy or respond to any environmental liability or condition on the Property that it is not Equilon's obligation under the Purchase and Sale Agreement.
3. Regulations. Licensor hereby agrees to comply with all existing and future applicable laws and regulations pertaining to underground storage tanks, including but not limited to liability and insurance requirements, inventory records, leak detection devices, system inspections, tank and line tests and tank field monitoring well tests. In the event that the Agency does not, for a period of one (1) year following the date of submission of Equilon’s written notice, express objections to the notice, then the Corrective Action shall likewise be conclusively presumed to be complete. Once the Corrective Action is complete, Equilon shall have no further obligation or liability to Licensor or Licensor’s successors and assigns for Corrective Action.

Licensor hereby assigns to Equilon any and all rights it may have against the applicable state and federal fund established by the state or federal government to fund or reimburse cleanups, assessments, remediations or satisfaction of claims at UST sites. Licensor agrees to cooperate with Equilon, including execution of additional documents, if necessary, in obtaining any allowable reimbursement from a state and federal fund established by the state or federal government to fund or reimburse cleanups, assessments, remediations, or satisfaction of claims at UST sites and that any moneys obtained from said fund shall belong solely to Equilon.
11. Dispute Resolution. The Parties agree that should any dispute arise under this Agreement which cannot be amicably resolved, the dispute shall be submitted to mediation prior to being submitted to Arbitration under the rules and procedures of the American Arbitration Association and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. Any mediator or arbitrator selected by the Parties shall be knowledgeable in environmental law and/or remediation technologies.
12. Execution of Agreement.
