Action only as and when required by the governmental agency with jurisdiction (the "Agency") in connection with a release of petroleum hydrocarbons at the premises. As used herein, the term, "Corrective Action", shall refer to one or more of the following activities: investigation, assessment, monitoring, sampling, analysis, cleanup, removal, disposal, on-site treatment, off-site treatment, active remediation, passive remediation, remediation alternatives including but not limited to risk-based corrective action ("RBCA"), if applicable, and/or other activities approved, concurred in or required by the Agency.
