**Re: Memorandum of Understanding Between City of Chicago and
IEPA**

Dear Mr. King:

Enclosed please find two executed copies of the Memorandum of Understanding ("MOU") between the City of Chicago and the Illinois Environmental Protection Agency, pursuant to 35 Ill. Adm. Code 742.1015. As I discussed earlier with Mark Wight, the version of the MOU that is enclosed varies from the one you and he approved only in that there are two exhibits rather than three, since the new groundwater ordinance also includes a provision authorizing the City of Chicago's Commissioner of Environment to enter into this MOU, thus simultaneously satisfying the requirements of 35 Ill. Adm. Code 742.1015(i)(3) and 742.1015(i)(1), relating to required MOU attachments. As to the remaining attachment (identification of the legal boundaries within which the Potable Water Supply Well Ordinance is applicable), Mr. Wight said that a letter from a City official stating that the ordinance applied throughout the City would satisfy the requirements of 35 Ill. Adm. Code 742.1015(i)(2). A letter to that effect is attached as Exhibit B.

Please execute both documents and return the one marked "City Copy" to me for our files. If you have any questions, do not hesitate to contact me at 312-744-6904.

Sincerely,

Mort P. Ames

MEMORANDUM OF UNDERSTANDING

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
and
CITY OF CHICAGO - DEPARTMENT OF THE ENVIRONMENT

Background

The Illinois Environmental Protection Agency ("Illinois EPA") and The City of Chicago - Department of the Environment ("DOE") recognize that the protection and safety of school children is of utmost importance. Both parties acknowledge that they have a positive working relationship within the various corrective action programs and recognize each other as a key partner in addressing the uncertainty to constructing schools on potentially contaminated property. Both parties play a critical role in Chicago for ensuring the proper cleanup, redevelopment and continued use of these properties. To the extent possible, both parties seek to facilitate the productive use and reuse of these properties, and recognize that a key factor to meeting this goal is to exercise their authorities and use their resources and qualified staff in ways that are mutually complementary.

Illinois EPA and DOE agree that this MOU shall serve as written public statement that both parties will strive to coordinate and cooperate to ensure the prompt cleanup and development of new schools on property that represents no significant risk to school children. Each party shall strive to coordinate its activities towards the successful completion of corrective action at properties being developed for this purpose.

To protect human health and the environment at sites that may or will be used for schools within the City of Chicago, Illinois EPA and DOE agree to jointly strive to meet the following goals:

To facilitate and ensure the prompt, appropriate remediation of potential school property by promoting investigations and cleanups that meet established legal standards and requirements.

To develop partnerships for the cleanup and redevelopment of properties among Illinois EPA, DOE, the Public Building Commission, Chicago Public Schools, and the Chicago Board of Education.

To provide to public, private and citizen/community groups, information and technical assistance about the cleanup and redevelopment of school properties.

The Illinois EPA and DOE acknowledge that these goals can best be met if the parties capitalize on opportunities to share resources with each other and/ or rely upon the resources of the other party where appropriate.

Agreement

With respect to sites enrolled in the Illinois Site Remediation Program that have their existing or anticipated use as a public school within the City of Chicago, the Illinois EPA and DOE agree to make best efforts to undertake the following activities:

(1) Upon request by the Illinois EPA, DOE will provide appropriate field oversight during the investigation, remediation, and development of properties that are or will be used for public schools to ensure that all activities are conducted in accordance with plans approved by Illinois EPA pursuant to 35 Ill. Adm. Code Parts 740 and 742. DOE agrees that it will respond on short notice from Illinois EPA if unanticipated site conditions arise that require immediate attention. DOE will, as appropriate, provide proper written documentation to Illinois EPA consisting of observations, activities, photos, etc. of its field activities and insure staff are properly trained. In advance of DOE undertaking the activities described in this paragraph, the Illinois EPA will identify and will assist DOE with any necessary supplemental training.

(2) DOE will review and provide comments on the adequacy, appropriateness and conclusions provided as part of reviewing the site investigation report, remediation objectives report, the remediation action plan and the remediation completion report.

(3) Upon the request of a Remediation Applicant or its agent, namely the Public Building Commission, DOE may, at its discretion, serve as a Review and Evaluation Licensed Professional Engineer (RELPE) in accordance with the requirements of the Illinois Site Remediation Program, 35 Ill. Adm. Code 740. Illinois EPA recognizes and agrees that certain DOE employees are qualified to serve as a RELPE, and DOE agrees to ensure that only qualified DOE employees may serve in such capacity. When providing review and evaluation services, DOE agrees that it shall conduct all such services in accordance with the requirements of the Illinois Site Remediation Program and the Illinois Tiered Approach to Corrective Action Program. Illinois EPA agrees to provide DOE with procedural guidance and checklists for use by DOE, and DOE agrees to use these materials in the provision of its services. In accordance with the requirements of the Illinois Site Remediation Program, DOE agrees that it will submit any plans or reports directly to Illinois EPA, that it will take direction for work assignments from Illinois EPA, and it will perform the assigned work on behalf of the Illinois EPA.

DOE acknowledges that only the Illinois EPA has final authority to approve, disapprove or approve with conditions, any plans or reports that it reviews and evaluates. However, Illinois EPA acknowledges the critical importance to DOE of ensuring appropriate cleanup and development of sites that are or will be used as public schools in a timely manner. Accordingly, Illinois EPA agrees

to review plans and reports and to issue No Further Remediation letters as expeditiously as possible. Illinois EPA will approve the remediation as complete or make a "No Further Remediation" determination based upon the compliance with the statutory and regulatory requirements of the Site Remediation Program (415 ILCS 5/Title XVII; 35 Ill. Adm. Code 740). The Illinois EPA shall provide copies of all determinations to DOE. Each party shall strive to resolve any conflicts that may arise to the satisfaction of each party.

(4) DOE acknowledges the comprehensive use of the Tiered Approach to Cleanup Objectives ("TACO") (35 Ill. Adm. Code 742) for environmental response actions and its Site Remediation Program to establish numeric soil and groundwater cleanup objectives.

(5) DOE will provide or assist in appropriate community relation meetings with the general public. Illinois EPA and DOE will ensure that copies of all plans and correspondence are made available to the public.

(6) DOE will provide future monitoring at schools where Illinois EPA has approved the remediation as complete or made a "No Further Remediation" determination based on the use of institutional controls or engineered barriers to ensure the continued use of such institutional controls or barriers.
