Lessee agrees that any and all installments of rent accruing under the provisions of this Lease, which shall not be paid when due, shall, subject to any applicable limitation imposed by State statute, bear interest at the rate of two percent (2%) per annum in excess of the prime rate charged by a principal bank in Chicago, Illinois, to its commercial borrowers as determined on the first date of a delinquency from the day when the same is or are payable by the terms of this Lease, until the same shall be paid; provided if any installment or installments of said rent shall become due on a Sunday or legal holiday the same shall be paid without interest on the next succeeding regular business day.

It is expressly understood and agreed that the forcible collections of the rent by any legal proceedings or otherwise by the Lessor or any other action taken by Lessor under any of the provisions hereof, except a specific termination or forfeiture of this Lease, shall not be considered as releasing the Lessee from its obligation to pay the rent as herein provided for the entire period of this Lease.

In the event Lessor commences any legal proceedings for non-payment of rent, forcible detainer or violation of any of the terms hereof, Lessee will not interpose any set off of any nature or description in any such proceedings.

Pursuant to those agreements, the various grantees have installed and are operating their respective surface and underground plant facilities which may lie within or otherwise affect the Demised Premises. Lessee shall, at its own initiative, inquire and satisfy itself as to the presence or absence of all such facilities on the Demised Premises, and waives all claims which it might otherwise have against Lessor on account of the presence of such facilities on the Demised Premises as same may affect Lessee's use and enjoyment of the Demised Premises.
- B. The Lessee expressly agrees that within an area delineated by a line parallel with and 250 feet distant from the top of the edge of the water of any waterway which traverses or is adjacent to the Demised Premises (Corporate Use Reserve Area) and all areas within the Demised Premises below the lowest elevation of development thereon as reflected in the Lessee's approved development plans for the Demised Premises, the Lessor and anyone acting under its authority shall have the right, without payment therefor, to construct, operate, maintain, repair, renew and relocate any and all pipe, sewer, structure, facility power, and communications lines and appurtenances upon, under and across the Demised Premises. - F. It is expressly understood and agreed that the Lessor shall not be liable to the Lessee for any loss, cost or expense which the Lessee shall sustain by reason of any damage at any time to its property caused by or growing out of the failure of the sewers, structures, or other equipment of the Lessor located on the Demised Premises, or by any other work which the Lessor may perform on the Demised Premises under the terms hereof, or adjacent to the Demised Premises. - G. The Lessee shall relocate or remove the improvements existing or constructed upon the Demised Premises, at no cost to the District in the following instances:

- (1) In the event that the Demised Premises are adjacent to any channel or waterway, and said channel or waterway is to be widened by the District or any other governmental agency; or

Any such construction shall be located as determined by the Executive Director of the Lessor so as to cause, in his opinion, the least interference with any equipment, or improvements, that the Lessee may then have on the Demised Premises.
- J. The Lessee agrees that if at any future date it desires to dispose of sewage, industrial wastes or other water-carried wastes from the Demised Premises, it will discharge the said sewage, industrial wastes or other water-carried wastes into an intercepting sewer owned by or tributary to the sewerage system of the Lessor. Lessee will make application and secure the necessary permit from the Metropolitan Water Reclamation District of Greater Chicago and all governmental and regulatory agencies having jurisdiction thereof before discharging any of the aforesaid sewage, industrial waste or other water-carried wastes into any intercepting sewers.
- K. The Lessee also agrees to collect separately all roof water, surface runoff from grounds and roadways, and drainage water and to discharge the same directly into the North Shore Channel all to be done in a manner acceptable to said Executive Director of the Lessor.

10.04 CONDITION OF DEMISED PREMISES (ENVIRONMENTAL)

- A. In the event Lessee has been the prior occupant/tenant of the Demised Premises under a prior occupancy use authorization, Lessee warrants and represents that to the best of Lessee's actual knowledge, during the period of such prior occupancy/use the Demised Premises and improvements thereon including all personal property, are free from contamination by any Hazardous Materials, that here has not been thereon a release, discharge, or emission, of any Hazardous Materials during its occupancy of the Demised Premises as defined by any Environmental Laws, and that the Demised Premises does not contain, or is not affected by underground storage tanks, landfills, land disposal sites, or dumps. *(This provision is applicable only to tenants seeking a new lease for the same property).
- B. In the event of a release, emission, discharge, or disposal of Hazardous Materials in, on, under, or about the Demised Premises or the improvements thereon during the term of this Lease except such release, emission, discharge or disposal by Lessor, its employees, or agents, Lessee will take all appropriate response action, including any removal and remedial action, either before or after the execution date of this Lease.

10.05 INDEMNIFICATION (ENVIRONMENTAL)

- A. In consideration of the execution and delivery of this Lease Agreement, the Lessee indemnifies, exonerates, and holds the Lessor and its officers, officials, Commissioners, employees, and agents ("Indemnified Parties") free and harmless from and against any and all actions, causes of action, suits, losses, costs, liabilities and damages and expenses incurred in connection with any of these (irrespective of whether any such Indemnified Party is a party to the action for which indemnification is here sought), including reasonable attorney's fees, costs

UNOFFICIAL COPY

and disbursements, incurred by the Indemnified Parties as a result of or arising out of or relating to (i) the imposition of any governmental lien for the recovery of environmental cleanup costs expended by reason of Lessee's activities, or (ii) any investigation, litigation, or proceeding related to any environmental response, audit, compliance, or other matter relating to the protection of the environment, or (iii) the release or threatened release by Lessee, its subsidiaries, or its parent company, of any Hazardous Materials, or the presence of Hazardous Materials on or under the Demised Premises, or any property to which the Lessee, its parent company or any of its subsidiaries has sent Hazardous Materials, (including any losses, liabilities, damages, injuries, costs, expenses, or claims asserted or arising under any Environmental Law), regardless of whether caused by or within the control of the Lessee.

- B. Lessee shall defend, indemnify, save and keep harmless the Indemnified Parties against any loss, damage, cost, lien or expense which they may suffer, incur or sustain or for which it may become liable, growing out of any Injury to or death of persons or loss or damage to property which shall at any time during the term of this Lease be caused by or resulting from the migration of Hazardous Materials from the Demised Premises to adjacent properties. In case any action, suit, proceeding or investigation shall be commenced against one or more of the Indemnified Parties growing out of any such loss, damage, cost or expense, the Lessee shall give immediate written notice of the same to the Lessor, and Lessee shall attend to the defense of the same and save and keep harmless the Indemnified Parties from all expense, attorney's fees, costs, disbursements and liabilities in any manner growing out of, pertaining to or connected therewith.
- C. Except for the property specifically referenced in Article 11, Section 11.01, Lessee shall be responsible for all costs for remediation of the Demised Property for contamination that migrates from adjacent property during the term of the Lease but Lessor may seek recovery from any responsible third party.

10.06 DEMISED PREMISES RESTORATION/ REMEDIATION BOND (ENVIRONMENTAL)

On or before the commencement of the last three year period of the leasehold term hereunder, Lessee shall submit a letter of intent to renew and within eighteen (18) months prior to expiration, execute the lease. If a lease is not executed prior to eighteen (18) months prior to expiration, Lessee shall lodge with the Lessor its Environmental Demised Premises Restoration/Remediation Bond in the penal sum of \$10,000.00, secured either by cash, irrevocable letter of credit or a commercial bond with surety to secure Lessee's performance of and compliance with the provisions and intent of Article 10 of this Lease. A cash payment securing the bond hereunder will be placed in an interest bearing account established by the Lessor specifically for this purpose. Any interest paid on account of said deposit shall be the property of and payable periodically to the Lessee. Such account shall be drawable only by Lessor upon its unilateral act. At no time shall the amount on deposit in said account be less than the penal sum of this Bond. Any commercial bond with surety shall be fully prepaid by the Lessee and documented as such at the time it is lodged with the Lessor. Said Bond shall be in a

UNOFFICIAL COPY

form approved by the Lessor and shall be maintained in full force and effect until such time as Lessee has demonstrated and documented to the reasonable satisfaction of Lessor (and Lessor has executed its written release thereof to the issuer), full compliance with all Environmental Laws, relating to Lessee's use or occupancy of the Demised Premises and its environmental restoration or remediation. This provision shall survive the termination/expiration of this Lease.

10.07 ENVIRONMENTAL COVENANTS

Lessee agrees to and covenants as follows:

- A. It has no knowledge of any pending or threatened:
- (1) claims, complaints, notices, or requests for information directed to Lessee with respect to any alleged violation of any Environmental Laws, or
 - (2) complaints, notices, or requests for information directed to Lessee regarding potential liability under any Environmental Law, relating to or arising from the Demised Premises.
- B. Lessee covenants and agrees that, throughout the term of the Lease, all Hazardous Materials which may be used by any person for any purpose upon the Demised Premises shall be used or stored thereon only in a safe, approved manner, in accordance with all generally accepted industrial standards and all Environmental Laws.
- C. Lessee has been issued and is in compliance with all permits, certificates, approvals, licenses, and other authorizations relating to environmental matters and necessary for its business, if any.
- D. Lessee, to the best of its knowledge, is not a potentially responsible party with respect to any other facility receiving waste of the Lessee (whether or not from the Demised Premises) under CERCLA or under any statute providing for financial responsibility of private parties for cleanup or other actions with respect to the release or threatened release of any Hazardous Materials.
- E. None of the manufacturing or distribution facilities of Lessee is subject to any environmental lien. "Environmental Lien" means a lien in favor of any government entity for any liability under any law relating to the environment or costs incurred by such government entity in response to the release or threatened release of any substance into the environment.
- F. Lessee will take all reasonable steps to prevent and has no knowledge of any conditions on the Demised Premises that is or was alleged by any government entity or third party to be in violation of any Environmental Laws. Lessee will take all reasonable steps to assure that there will be no spill, discharge, leaks, emission, injection, escape, dumping, or release of any toxic or Hazardous Materials by any persons on the Demised Premises during the term of this Lease.

UNOFFICIAL COPY

- G. Except as disclosed on Attachment D hereto, Lessee has not received from any government entity since 1980, any written complaint or written notice asserting potential liability, written request for information, or written request to investigate any site under the CERCLA of 1980, as amended, or under any domestic state law comparable to CERCLA or any foreign law comparable to CERCLA.
- H. Lessee, to the best of its knowledge after due inquiry, since November 15, 1971, represents that there has not been any discharging, spilling, leaking, dumping, or burying of hazardous substances, as defined in CERCLA, or disposal of hazardous wastes, as defined in RCRA, or of any other pollutant or contaminant at the Demised Premises that is likely to form the basis for any written claim by any government entity seeking to impose liability for remedial action under CERCLA or RCRA *(This provision applicable only to occupants/tenants seeking a new lease for the same property).
- I. During the term of this Lease, Lessee will not allow the installation of asbestos on the Demised Premises, or any item, article, container or electrical equipment, including but not limited to transformers, capacitors, circuit breakers, reclosers, voltage regulators, switches, electro-magnets and cable, containing PCBs.
- J. The Lessee shall notify Lessor in writing of any proposed significant renovation or improvement on or to the Demised Premises, which notice shall include any drawings, plans and specifications thereof, at least 30 days prior to beginning construction of any such renovation or improvement. For purposes of this subsection (1), renovation shall be deemed significant when the total cost exceeds \$10,000.00.
- K. In the event Lessee installs or constructs trenches during this Lease term, Lessee shall be responsible to install "plugs" of compacted impermeable soil material at intervals of no greater than 100 feet between such plugs along utility trenches which have been backfilled with compacted granular materials in order to minimize cross-site and off-site environmental contaminant migration. The spacing of these plugs should be based on the characteristics of the site, the configuration of the trench or trenches, the characteristics (nature and extent) of the site environmental contamination, and/or the potential for site contamination should a surface or subsurface chemical release occur. Special emphasis should be placed on locating these plugs at all utility trenches where they cross: other utility trenches, containment berms or walls, property boundaries, and lease boundaries.
- L. The aforesaid representations and warranties shall survive the expiration or termination of the Lease.

10.08 DEFAULT (ENVIRONMENTAL)

UNOFFICIAL COPY

The occurrence of any one or more of the following events shall constitute a default under this Lease Agreement, but said default shall not terminate the Lease unless Lessor notifies Lessee of termination in writing:

- A. The Demised Premises are listed or proposed for listing on the National Priorities List pursuant to Section 1.05 of the CERCLA, 42 U.S.C. Section 9605, on the CERCLIS, or on any other similar state list of sites or facilities requiring environmental investigation or cleanup.
- B. Lessee is determined to have liability for underground storage tanks, active or abandoned, including petroleum storage tanks, on or under the Demised Premises, including any release of Hazardous Materials therefrom, that, singly or in the aggregate, have or may reasonably be expected to have a material adverse effect on the financial condition, operations, assets or business, properties or prospects of Lessee.
- C. Lessee is determined to have liability for polychlorinated biphenyls (PCBs) that require immediate remediation or cleanup or friable asbestos in such condition to cause or threaten to cause, a present health hazard at any property previously leased by Lessee that, singly or in the aggregate, has or may reasonably be expected to have a material adverse effect on the financial condition, operations, assets, business, properties, or prospects of Lessee.
- D. Lessee is determined to have liability under any Environmental Laws for any condition that exists at, on, or under any property previously leased by Lessee that, with the passage of time or the giving of notice, or both, gives rise to liability that, singly or in the aggregate, has or may reasonably be expected to have a material adverse effect on the financial condition, operations, assets, or business properties or prospects of Lessee.

10.09 ADDITIONAL ENVIRONMENTAL COVENANTS

Lessee shall cause each of its contractors, subcontractors, employees, and agents to:

- A. (1) Use and operate all of the Demised Premises in compliance with all applicable Environmental Laws, keep all material permits, approvals, certificates, and licenses in effect and remain in material compliance with them;
- (2) undertake reasonable and cost-effective measures to minimize any immediate environmental impact of any spill or leak of any Hazardous Materials caused by Lessee or any person permitted to use the Demised Premises by Lessee or any third party during the term of the Lease except Lessor;
- (3) provide notice to the Lessor of the operation of any on-site non-hazardous waste disposal facility. For purposes of this subsection (A)(3), the term "waste" means any discarded or abandoned material, and the term

UNOFFICIAL COPY

"disposal facility" means any facility in which wastes are placed for disposal or storage, in each case, for longer than three (3) months.

- B. Notify Lessor by telephone within two hours of Lessee's actual knowledge the release of Hazardous Materials, including the extent to which the identity of the Hazardous Materials is known, the quantity thereof and the cause(s) of the release, and provide Lessor within 72 hours of the event, with copies of all written notices by Lessee, its parent and its subsidiaries that are reported to government regulators or received from the government regulators.
- C. Provide such information that Lessor may reasonably request from time to time to determine compliance by the Lessee with this Article.
- D. Lessee covenants and agrees to cooperate with Lessor in any inspection, assessment, monitoring or remediation instituted by Lessor during the Lease term and to allow prospective tenants or purchasers reasonable access to the Demised Premises one year prior to the expiration of the Lease.

10.10 COMPLIANCE (ENVIRONMENTAL)

The Lessee will cause its parent company and each of its subsidiaries, if any, to exercise due diligence to comply with all applicable treaties, laws, rules, regulations, and orders of any government authority.

- A. Lessee shall conduct a Phase I Environmental Assessment, at its own expense, with respect to the Demised Premises every tenth anniversary of the execution of this Lease and submit the written report to the Lessor within 90 days after each tenth anniversary. After review of each Phase I Environmental Assessment, or at any other time, upon receipt of any information or report Lessor, at its sole discretion, may require Lessee, at Lessee's expense, to obtain a Phase II Environmental Assessment with respect to the Demised Premises. The written report of the Phase II Environmental Assessment shall be submitted to Lessor within 120 days of Lessor's request for same. If the Phase II Assessment discloses the presence of any Hazardous Materials contamination on the Demised Premises or adjacent property caused or permitted by Lessee during the term of the Lease, Lessee shall take immediate action to remediate the contamination and to restore the Demised Premises to a clean and sanitary condition and to the extent required by any and all environmental laws. Lessor may require Lessee to obtain a Phase I and Phase II Environmental Assessment with respect to the Demised Premises at any other time if it has reasonable suspicion of the presence of Hazardous Material on the Demised Premises resulting from Lessee's activities.
- B. If buildings exist on the premises on the date of this Lease or subsequent thereto, Lessee agrees to implement its own building maintenance and operations program for asbestos inspections on an annual basis and to report its findings to Lessor annually on the anniversary date of the Lease.

UNOFFICIAL COPY

- C. Capacitors, transformers, or other environmentally sensitive installations or improvements shall be removed at the end of the Lease at Lessor's election.
- D. In addition to the Environmental Assessments required in paragraph A of this Article, Lessor shall have the right, but is not required to cause an independent environmental consultant, chosen by the Lessor at its sole discretion, to inspect, assess and test the Demised Premises for the existence of any and all environmental conditions and any and all violations of Environmental Laws (Environmental Assessment). The scope, sequence and timing of the Environmental Assessment shall be at the sole discretion of Lessor.
- E. If any Environmental Assessment reveals, or Lessor otherwise becomes aware of, the existence of any violation of any Environmental Laws that either Lessee is unwilling to remediate or that Lessor is unwilling to accept, Lessor shall have the right and option to terminate this Agreement and to declare it null and void.
- F. Not less than one (1) year prior to the expiration of the Lease, Lessee shall have caused to be prepared and submitted to the Lessor a written report of a site assessment in scope, form and substance, and prepared by an independent, competent and qualified professional and engineer, registered in the State of Illinois, satisfactory to the Lessor, and dated not more than eighteen (18) months prior to the expiration of the Lease, showing that:
- (1) the Demised Premises and any improvements thereon do not materially deviate from any requirements of the Environmental Laws, including any licenses, permits or certificates required thereunder;
 - (2) the Demised Premises property and any improvements thereon do not contain: (i) asbestos in any form; (ii) urea formaldehyde; (iii) items, articles, containers, or equipment which contain fluid containing polychlorinated biphenyls (PCBs); or (iv) underground storage tanks which do not comply with Environmental Laws;
 - (3) the engineer has identified, and then describes, any Hazardous Materials utilized or maintained on the Demised Premises, the exposure to which is prohibited, limited, or regulated by any Environmental Laws;
 - (4) if any Hazardous Materials were utilized and maintained on the Demised Premises, the engineer has conducted and submitted a Phase II Environmental Assessment of the Demised Premises, which documents that the Demised Premises and improvements are free of contamination by Hazardous Materials;
 - (5) the engineer has identified and then describes, the subject matter of any past, existing, or threatened investigation, inquiry, or proceeding concerning environmental matters by any federal, state, county, regional or local authority, (the "Authorities"), and described any submission by Lessee concerning said environmental matter which it intends to give, has

UNOFFICIAL COPY

been given or should be given with regard to the Demised Premises to the Authorities; and

- (6) the engineer includes copies of the submissions made pursuant to the requirements of Title III of the Superfund Amendments and Reauthorization Act of 1986, (SARA) Section 11001 et seq. of Title 42 of the United States Code.

- G. In the event Lessee should receive a Notice of Environmental Problem, Lessee shall promptly provide a copy to the Lessor, and in no event later than seventy-two (72) hours from Lessee's and any tenant's receipt or submission thereof. "Notice of Environmental Problem" shall mean any notice, letter, citation, order, warning, complaint, inquiry, claim, or demand that: (i) the Lessee has violated, or is about to violate, any Environmental Laws; (ii) there has been a release, or there is a threat of release, of Hazardous Materials, on the Demised Premises, or any improvements thereon; (iii) the Lessee will be liable, in whole or in part, for the costs of cleaning up, remediating, removing, or responding to a release of Hazardous Materials; or (iv) any part of the Demised Premises or any improvements thereon is subject to a lien in favor of any governmental entity for any liability, costs, or damages, under any Environmental Laws, arising from or costs incurred by such government entity in response to a release of a Hazardous Material.

10.11 INSPECTION AND RIGHT OF INSPECTION (ENVIRONMENTAL)

- A. In the event Lessee receives a Notice of Environmental Problem as defined in Paragraph 10.01, Lessee shall, within ninety (90) days, submit to Lessor a written report in scope, form and substance, and prepared by an independent, competent and qualified, professional, registered engineer, reasonably satisfactory to the Lessor, showing that the engineer made all appropriate inquiry consistent with good commercial and customary practice and consistent with generally accepted engineering practice and procedure, indicating whether any evidence or indication came to light which would suggest there was a release of substances on the Demised Premises which could necessitate an environmental response action, and which describes the Demised Premises compliance with, or lack thereof, and with all applicable environmental statutes, laws, ordinances, rules, and regulations, including licenses, permits, or certificates required thereunder, and the Lessee's compliance with the representations and warranties previously set forth in this Lease. After review of the written report, upon reasonable basis therefor Lessor may require Lessee to submit a written Phase II Environmental Assessment pursuant to provisions set forth in paragraph 10.10 A.
- B. Lessor hereby expressly reserves to itself, its agents, attorneys, employees, consultants, and contractors, an irrevocable license and authorization to enter upon and inspect the Leased Premises and improvements thereon, and perform such tests, including without limitation, subsurface testing, soils, and groundwater testing, and other tests which may physically invade the Demised Premises or

improvements thereon, as the Lessor, in its sole discretion, determines is necessary to protect its interests.

WATERWAY STRATEGY RESOLUTION

On February 23, 1984, the Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago ("District") unanimously adopted a Waterway Strategy Resolution. The resolution represents the District's formal commitment to the creation and maintenance of an attractive linear scenic easement the entire length of the inland waterways, which will be accessible to the public, where feasible. Toward that end, the resolution imposes certain requirements for new leases located along the waterways. These requirements include, but are not limited to, the following:

- A sixty (60)-foot waterway edge setback or scenic easement;
- The lessee is responsible for bank stabilization and the construction and maintenance of a landscaped visual screen within the setback [and grounds], including an eight (8)-foot wide curvilinear trail therein;
- Any docking facility constructed must be approved and compatible with the visual intent of the scenic easement;
- Storage of unsightly materials and/or debris within either the scenic easement or the docking area is prohibited. The unscreened storage of material will not be allowed anywhere within the leasehold; and
- It is the intent of the District to maintain, where possible, a "natural" appearance to its properties by retaining existing vegetative cover. However, in those cases where it is necessary to remove that existing vegetative cover, the lessee will be required to re-establish vegetative cover in the same quantities and qualities as those removed. The re-established plant materials are to be considered as an addition to the landscaping required within the scenic easement.
