This conveyance is made and accepted upon each of the following stipulations, restrictions and conditions which are hereby made covenants running with the land, and which shall apply to and be binding upon the purchaser, its successors or assigns.

1. That no building shall at any time be erected on the said premises within twenty-five (25) feet of any street right-of-way adjoining the same, within ten (10) feet from all side boundary lines, or within fifteen (15) feet from the rear boundary line of the premises.

2. No loading dock shall be erected on the said premises fronting on any street, unless the front of such loading platform shall be set back at least sixty (60) feet from the property line abutting the street on which said loading dock fronts.

3. The grantee agrees to provide on the premises off-street automobile hard surface parking areas of blacktop, asphalt or other recognized hard surfaces, based on a minimum rate of one 300 square foot space for each two (2) employees employed on the premises by the original occupants thereof, and to treat the side slopes of any drainage ditch on the property with either sod, asphalt, pavement or riprap.

4. All buildings erected on the property shall be of masonry construction or its equivalent or better. Front walls facing on streets of such buildings must be finished with face brick, stone, modern metal paneling, glass or their equivalent. Other walls shall be faced with common brick or its equivalent.

5. Grantee agrees that the area between the setback lines and the curb lines shall be used for either open landscaped and green areas or for service access to the building, or to a parking lot. Landscaped areas shall be done attractively with lawns, trees, shrubs and similar treatment and shall be properly maintained in a sightly and well-kept condition.

The grantor retains such right-of-way and easements as may be necessary or convenient for the purpose of erecting, constructing, maintaining and operating utility services over, across, under and through the premises in the designated setbacks areas between the building lines and the property lines, including public service wires and conduits for lighting, power and telephone, gas lines, sanitary sewer, storm sewer and water, and the grantor shall have the right to grant right-of-way easements to others to carry out this purpose. Any contract for the laying of such lines, wires, conduits, pipes or sewers shall also provide that the premises shall be restored to the same condition they were in prior to the doing of such work.

8. Storage yards for equipment, raw materials, semi-finished or finished products shall be enclosed by solid wall or fence including solid doors or gates thereto at least six (6) feet high.

Each of the foregoing covenants, conditions and restrictions shall run with the land hereby conveyed, and a breach of any one of them and a continuance thereof may, at the option of the grantor, its successors or assigns, be enjoined, abated or remedied by appropriate proceedings.
