1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved.

1. RESEARCH - The study of the behavior of organisms in their natural environment. It involves the collection of data and the use of scientific methods to analyze the data.

1. The first step is to identify the variables involved in the problem. In this case, the variables are the number of hours worked (H) and the number of hours of leisure (L). The total number of hours available is 24, so we have the constraint  $H + L = 24$ .

1. The defendant is a person who is a member of the same family as the person who is the subject of the investigation.
