of a later date, and to receive any other amount of money paid into the registered office by the subscriber.

*A great deal of care is taken by the author to distinguish between the different types of evidence, and the different ways in which they can be used to support a particular claim. The book is well-organized and clearly written, making it accessible to students and researchers in the field.*

**C** The most common cause of death in patients with heart failure is sudden death, and the underlying mechanism is often myocardial ischemia.

It is interesting to note that the results of the present study are in accordance with those of other insurance companies in India. Andhra Pradesh Motor Insurance Corporation Ltd. has also reported that the number of claims per car per annum is 1.44.<sup>1</sup> The difference could be due to the fact that the survey was conducted by the author in the state of Andhra Pradesh, while the survey was conducted by APICL in the entire country.

## THE MORTGAGE COVENANTS

“The first step is to identify the specific needs of each group, and then to develop programs that address those needs,” says Dr. Linda K. Johnson, director of the National Institute on Aging’s Division of Geriatrics and Gerontology.

After the first few days of the experiment, the subjects were asked to keep a diary of their diet and exercise patterns for the next week.
