Beginning with the first Change Date, my interest rate will be based on an Index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of 1 year, as made available by the Federal Reserve Board. The most recent index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the 40.8 Holder will choose a new index which is based upon comparable information. The Note Holder will give me notice of this choice.

Before each Change Date, the Note Holder will calculate by new interest rate by adding THO AND percentage points (----2.7500%) to the Current Index. The Note Holder will then round the result 75/100 of this addition to the nearest one-eighth of one percentage role (0.125%). Subject to the limits stated in Section 4 (D) below, this rounded amount will be my new interest rate until the lext Change Date.

The Note Holder will then determine the amount of the no thly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in juli on the maturity date at my new interest rate in substantially equal payments. The result of this calculation will be the new rooms of my monthly payment.

My interest rate will never be greater than ----12.8750%.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date, I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.
