In our study, we found that the mean age at first sex was 15.6 years old, which is consistent with previous studies. The mean age at first sex in our study was slightly higher than that in previous studies, which may be due to the fact that our study population was older than that in previous studies. The mean age at first sex in our study was also higher than that in previous studies, which may be due to the fact that our study population was older than that in previous studies.
