On each Change Date you will add 200 basis points (2.00 percentage points, called the "Margin") to the Current Index. If this sum is not an even quarter of percent, it will be rounded down to the nearest one-quarter of one percent. If I am participating in the payroll deduction plan or have agreed to permit preauthorized transfers from my Share Account and there is a sufficient balance in my Share Account, you will reduce this amount by 25 basis points. The result will be my new Annual Percentage Rate, but will be subject to the limitations set forth in Subparagraph E. below.

E. Limits On Changes.

The Annual Percentage Rate will not increase above the maximum legally permissible rate. In addition, my ANNUAL PERCENTAGE RATE will not increase above 14% or below 8%. During any one calendar year my Annual Percentage Rate will not increase or decrease such that the Cash Payment Interest Rate increases or decreases more than one level as shown in the Payment Calculation Rate chart in the Note. My Cash Payment Interest Rate as of January 1 can increase during the year to the highest Cash Payment Interest Rate in the next highest level, but cannot go higher during the year. My Cash Payment Interest Rate as of January 1 can decrease during the year to the lowest Cash Payment Interest Rate in the next lowest level, but cannot go lower during the year. This restricts the change in my Annual Percentage Rate during any one calendar year to four percentage points.

F. Effect of Change.

An increase in the Annual Percentage Rate either will result in higher payments, if my Cash Payment Interest Rate increases, to he next level shown on the payment chart, or will result in a smaller portion of my payments going to repay principal, which will mean that my unpaid principal balance will be repaid slower. A decrease in my Annual Percentage Rate either will result in lower payments, if my Cash Payment Interest Rate decreases to a lower level shown on the payment chart or will result in more of my payments going to repay principal, which will mean that my unpaid principal balance will be top id more rapidly.
