He further certifies that he estimated what portion of the total cost of such improvement would be of benefit to the public and what portion thereof would be of benefit to the property to be benefited and apportioned the same between the District and such property so that each will bear its relative equitable proportion; the amount so estimated and apportioned to the District as public benefit being the sum of none, and the amount so estimated and apportioned to the property to be benefited being the sum of \$4,637,041.92 and having found such amounts the undersigned did apportion and assess the amount so found to be of benefit to the property upon the several lots, blocks, tracts and parcels of land in the proportion in which they will severally be benefited by such improvement; and that no lot, block, tract or parcel of land has been assessed a greater amount than it will be actually benefited.
