COOK COUNTY RECORDER

THIS IS A JUNIOR MORTGAGE

which, with the property hereinafter described, is referred to herein as the "premises."

TOGETHER with all improvements, tenements, basements, fixtures, and appurtenances thereto belonging, and all rents, issues and profits thereof for
so long and during all such times as Mortgagors may be entitled thereto (which are pledged primarily and on a parity with said real estate and not secon-
darily), and all apparatus, equipment or articles now or hereafter therein or thereon used to supply heat, gas, air conditioning, water, light, power, re-
frigeration (whether single units or centrally controlled), and ventilation, including (without restricting the foregoing) screens, window shades, storm
doors and windows, floor coverings, ladder beds, awnings, stoves and water heaters. All of the foregoing are declared to be part of said real estate whether
physically attached thereto or not, and it is agreed that all similar apparatus, equipment or articles hereafter placed in the premises by the mortgagors or
their successors or assigns shall be considered as constituting part of the real estate.

TO HAVE AND TO HOLD the premises unto the said Trustee, its successors and assigns, forever, for the purposes, as upon the uses and trusts
 herein set forth, free from all rights and benefits under and by virtue of the Homestead Exemption Laws of the State of Illinois, which said rights and
benefits the Mortgagors do hereby expressly release and waive.

This Trust Deed consists of two pages, the conditions and provisions appearing on this page and on page two (the reverse side thereof) are incorporated
herein by reference and are a part hereof and shall be binding on the Mortgagors, their heirs, successors and assigns.

⁴ In case of standard deviation, parameter estimate of the error term was not significant at the 0.05 level.

Therefore, the first step is to identify the relevant variables that influence the outcome of interest. This can be done by examining the literature, conducting surveys or interviews, and analyzing existing data. Once the variables have been identified, they can be used to develop a model that can predict the outcome based on the input variables.

3. **Geographical distribution** of the plant species and populations now or previously limited to the part of the country where they have been introduced and which have spread outside their original range.

Based on the above discussion which may be referred to in the first part of this paper, it is clear that the present model may be considered as a generalization of the one proposed by G. C. Evans and R. W. Jones (1969).
