For example, the *ASVAB* is a test used by the U.S. military to determine which job candidates would be best suited for specific military occupations.

Consequently, the results of the present study indicate that the use of a single dose of *Leishmania* major-specific IgG4 antibody can induce a significant reduction in the number of *Leishmania* parasites in the skin lesions of patients with CL.

As a result of the above-mentioned factors, the number of patients with primary hypertension in our country is estimated at 10 million, and the number of patients with secondary hypertension is about 1 million.

After the first year, the group will be split into two groups: one group will continue with the original curriculum, while the other group will receive the new curriculum. This will allow us to compare the effectiveness of the new curriculum against the current one.

2013, Denver, CO, USA, 12–16 August 2013.

ANSWER The first two digits of the answer are 10. The next digit is 0, so the answer is 100.

Бюджетная политика в сфере здравоохранения в последние годы неоднократно подвергается критике со стороны экспертов и общественности. Важной проблемой является недостаточное финансирование санаториев и реабилитационных центров. Для решения этой проблемы необходимо усилить государственное регулирование и создать более эффективные механизмы распределения бюджетных средств. Одним из путей решения проблемы может стать переход на концепцию «законодательного бюджетирования», при котором бюджетные средства будут направляться непосредственно на конкретные цели, а не на общие расходы. Это позволит повысить прозрачность и эффективность использования бюджетных средств.
