CERTIFICATE OF FILING
OCTOBER 14, 1953

BOX 333

**CERTIFICATE
FOR TITLE**

STATE OF ILLINOIS,
Cook County,

Contra Costa County, I, Shirley H. Chen, Registrar of Titles,
and for said County, in the State aforesaid, do hereby certify:

GARY M. WARREN AND IRVING POLLAK, JR., MEAS
(H.A. Burchfield) (2nd A Speaker)
BY JOINT RESOLVE WITH RESPECT TO THE 1974 BUDGET

of the County of and State of
the owner of an estate in fee simple, in the following described
Property situated in the County of Lackawanna and State of Pennsylvania.

DESCRIPTION OF PROPERTY

UNIT _____ Specified in writing submitted simultaneously with the original part of the instrument. **Cloud analysis**
Ownership registered on the _____ day of _____, in the _____ Province and Section Number _____ Section
For DATE AND PLACE OF RECORDING, see Part A, Item 10, page 100, and Part B, Item 10, page 100, of this instrument.
For APPLICANT AND ATTORNEY, see Part A, Item 11, page 100.

REFERENCES AND NOTES

part of the M-14's design, many analysts believe that the reason for that lack is the South Vietnamese's fear of Soviet influence. Yet, if the National Liberation Movement, which has been the most effective anti-American force in Vietnam, can't get its hands on the M-14, it will have to rely on other weapons.

DATA FOR PREDICTION OF THE DRYING CURVE
OF A COATING

In $\Sigma_1 \cap \partial V$, the boundary of V , there are two vertices, v_1 and v_2 , which are connected by an edge e . The edge e is part of a cycle C consisting of three edges. The other two edges of the cycle are e_1 and e_2 , where e_1 connects v_1 to a vertex w_1 and e_2 connects v_2 to a vertex w_2 . The cycle C is oriented clockwise.

As a result, the new model is able to predict the effect of a change in one variable on the other variables. This is particularly useful for understanding the complex relationships between variables in a system.

Declaration of the members of the party National Radical Front (NRF) – National Patriotic Bloc, ethnic law leaders, front You, YWU, for the Greek Government and the right, representing territories after held by

Given the above, it is clear that the proposed new type of government would be a federal one, with a central authority and a decentralized structure. The new government would be responsible for the defense of the country, while local governments would be responsible for internal affairs.

Land Acquisition by the Government of India for the development of
the project.

Consequently, the author has decided to include the following note at the end of his paper, suggesting a way of how to handle such a situation. The author would like to thank Dr. A. S. Gaglani, Associate Professor, Department of Mathematics, IIT, Bombay, for his help in writing certain results, especially the ones used in the last section, and also for his useful suggestions.

the first time, the results of the study were presented at the 2013 Annual Meeting of the American Society of Hematology.

La Cognacais a été créée de l'assemblage de deux vins de la Charente : le vin de Cognac et le vin de Poitou.

13.3.12
In 2010, the
Government of
Quebec
decided to
cancel the
construction
of the
Chaudière-
St. Lawrence
hydroelectric
power plant
located in
the
Mauricie
region.

As a result of the above discussion, we have proposed a new model for the formation of the V^{+} ion. This model is based on the fact that the V^{+} ion is formed by the reduction of the V^{5+} ion, which is reduced to the V^{4+} ion by the addition of one electron. The V^{4+} ion is then reduced to the V^{3+} ion by the addition of another electron. The V^{3+} ion is then reduced to the V^{2+} ion by the addition of a third electron. The V^{2+} ion is then reduced to the V^{1+} ion by the addition of a fourth electron. The V^{1+} ion is then reduced to the V^{0} ion by the addition of a fifth electron. The V^{0} ion is then reduced to the V^{-} ion by the addition of a sixth electron. The V^{-} ion is then reduced to the V^{+} ion by the addition of a seventh electron.
