Sefore each Change Date, the Note Holder will calculate my new interest rate by adding.
Two and Three Quarters

Two and Three Quarters percentage points 2.750 %) to the Current Index.

The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(0) below, this number amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to one at the Change Date in full or the maturity date it my new interest rate in substantially equal payments. The result of this calculation will be the post amount of my monthly payment.
