1910-1911 season. It has been found that the most common method of obtaining the
oil is by heating the seeds in a pot of water and then pouring the oil out. This
method is not very efficient and the oil is of poor quality. A better method
is to use a press. The seeds are first crushed and then pressed. The oil
is then filtered and bottled. The oil is used for cooking and for making
candles. It is also used for medicinal purposes. The oil is said to be good
for the skin and for the hair. It is also said to be good for the eyes.
The oil is said to be good for the stomach and for the bowels. It is also
said to be good for the lungs and for the throat. It is also said to be good
for the heart and for the blood. It is also said to be good for the nerves
and for the brain. It is also said to be good for the muscles and for the bones.
It is also said to be good for the joints and for the ligaments. It is also
said to be good for the tendons and for the cartilages. It is also said to be
good for the skin and for the hair. It is also said to be good for the eyes.
It is also said to be good for the stomach and for the bowels. It is also
said to be good for the lungs and for the throat. It is also said to be good
for the heart and for the blood. It is also said to be good for the nerves
and for the brain. It is also said to be good for the muscles and for the bones.
It is also said to be good for the joints and for the ligaments. It is also
said to be good for the tendons and for the cartilages. It is also said to be
good for the skin and for the hair. It is also said to be good for the eyes.
