The "Index" is the weekly average yield on United States "caracry securities adjusted to a constant maturity of 1 year, as made available by the Federal Reserve Board. The mass recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longe svailable, the Mote Molder will choose a new index which is based upon comparable information. The Note Holder will give me notice of this choice.

#### (C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by edding Two and Three Guarters

percentage points / 2.780 X) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly cayment that would be sufficient to repay the unpeid principal that I am expected to owe at the Change Date in full on the maturity date at my new interest rate in substantially equal payments. The result of this calculation will be the yeu amount of my monthly payment.

#### (D) Limits on Interest Rate Changes

The conversion can only take place on a date(s) specified by the Note Holder during the period beginning on the first Change Date and ending on the fifth Change Date. Each date on which my adjustable interest rate can convert to the new fixed rate is called the "Conversion Date."

My new, fixed interest rate will be equal to the federal Nome Loan Mortgage Corporation's required net lyield as of a date and time of day specified by the Note Holder for (i) if the original term of this Note is greater than 15 years, 30-year fixed rate mortgages covered by applicable 60-day mendatory delivery commitments, plus three-sighths of one percentage point (0.375%), rounded to the nearest one-eighth of one percentage point (0.125%), or (ii) if the original term of this Note is 15 years or less, 15-year fixed rate mortgages covered by applicable 60-day mandatory delivery commitments, plus three-eighths of one percentage point (0.375%), rounded to the nearest one-eighth of one percentage point (0.125%).
