After a long time of silence, the author of the letter to the editor has now responded to the editor's request for further information. The author states that he has no objection to the editor publishing his response, and that he would like to add that he has a great deal more to say on the subject, but that he has been prevented from doing so by the editor's insistence on publishing only a short letter.

3 In the case of the same species, different subspecies differ in their degree of adaptation to different environments. This is particularly true for the plants, which have the ability to spread over large areas and adapt to different environments. The degree of adaptation depends on the degree of specialization of the plant to its environment. The degree of specialization is determined by the degree of adaptation to the environment.
