Open access to the scientific literature is important for scientific progress and for the public to benefit from the results of tax research.

Figure 10 shows the effect of the upper boundary condition on the results obtained by the finite difference scheme. The results are plotted in the same way as in Figure 9.

<sup>1</sup> See also the discussion of the relationship between the two concepts in the section on "The concept of 'cultural capital'".

As a result, the number of patients with a history of stroke or TIA was significantly higher in the group with a history of hypertension than in the group without a history of hypertension.

<sup>1</sup> The author would like to thank the editor and anonymous referees for their useful comments and suggestions.

As a result, the number of people who have been infected with the virus has increased rapidly, and the number of deaths has also increased.
