the monthly payments, as follows:

4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Charge Dates

The interest rate I will pay may change on the first day of APRIL ISS ... and on that day

(B) The lodex

Beginning with the first Change Date, my interest rate will be based on an Index. The "Index" is the weekly average of secondary market interest rates on 6-month negotiable certificates of deposit, at mark available by the Federal Reserve Board. The most recent index figure available as of the date 45 days before each Clarge Date is called the "Current Index." If the Index is no longer available, the Note Holder will choose a new index ther is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding .XURBEAND.335/LIMA. percentage points (....3.125%) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to nive at the Change Date in full on the maturity date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.
