#### 4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

187 (A) Change Dales  $v^{(1)}$ 

The interest rate I will pay may change on the first day of April, 1908, and on that day every thirty six (36) month(s) thereafter. Each date on which my interest rate could change is called a "Change Date."

Beginning with the first Change Date, my interest rate will be based on an index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of 3 year(s), as made available by the Federal Reserve Board. The most recent index figure expliable as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new Index which is based upon comparable

Information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding 1.000 percentage points to the Current index. The Note Holder will then round the reach of this calculation to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Hokler will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the maturity date at my new interest rate In substantially equal payments. The result of this calculation will be the new amount of the monthly payment, (D) Limits on Interest Rate Changes

Thereafter, my interest rate will never be increased or decreased on any single Change Date by more than two percentage points (2.000%) from the rate of interest I have been paying for the proceeding thirty six (36) month(s). My interest rate will never be greater than 14.800%.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration.
