III. NOTIFICATION

Under the Illinois Environmental Protection Act¹ owners of real property may be held liable for costs related to the release of hazardous substances.

1. Section 22.2(f) of the Act² states:

"Notwithstanding any other provision or rule of law, and subject only to the defenses set forth in subsection (j) of this Section, the following persons shall be liable for all costs of removal or remedial action incurred by the State of Illinois as a result of release or substantial threat of a release of a hazardous substance:

(1) The owner and operator of a facility or vessel from which there is a release or substantial threat of release of a hazardous substance;

(2) Any person who at the time of disposal, transport, storage or treatment of a hazardous substance owned or operated the facility or vessel used for such disposal, transport, treatment or storage from which there was a release or substantial threat of a release of any such hazardous substance;

(3) Any person who by contract, agreement or otherwise has arranged with another party or entity for transport, storage, disposal or treatment of hazardous substances owned, controlled or possessed by such person at a facility from which there is a release or substantial threat of a release of such hazardous substances; and

(4) Any person who accepts or accepted any hazardous substances for transport to disposal, storage or treatment facilities or sites from which there is a release or a substantial threat of a release of a hazardous substance."

2. Section 4(q) of the Act³ states:

"The Agency shall have the authority to provide notice to any person who may be liable pursuant to Section 22.2(f) of this Act for a release or a substantial threat of a release of a hazardous substance. Such notice shall include the identified response action and an opportunity for such person to perform the response action."

¹ Chapter 111½ § 1001 et seq.

² Chapter 111½ § 1022.2.

³ Chapter 111-1/2 , § 1004.

UNOFFICIAL COPY

3. Section 22.2(k) of the Act states:

"If any person who is liable for a release or substantial threat of release of a hazardous substance fails without sufficient cause to provide removal or remedial action upon or in accordance with a notice and request by the agency or upon or in accordance with any order of the Board or any court, such person may be liable to the State for punitive damages in an amount at least equal to, and not more than 3 times, the amount of any costs incurred by the State of Illinois as result of such failure to take such removal or remedial action. The punitive damages imposed by the Board shall be in addition to any costs recovered from such person pursuant to this Section and in addition to any other penalty or relief provided by this Act or any other law."

4. Section 22.18(a) of the Act⁴ states:

"Notwithstanding any other provision or rule or law, except as provided otherwise in subsection (b), the owner or operator, or both, of an underground storage tank shall be liable for all costs of preventive action, corrective action and enforcement action incurred by the State of Illinois as a result of a release or a substantial threat of release of petroleum from an underground storage tank."

5. The text of the statutes set out above is subject to change by amendment. Persons using this form may update it to reflect changes in the text of the statutes cited, but no disclosure statement shall be invalid merely because it sets forth an obsolete or superseded version of such text.

IV. ENVIRONMENTAL INFORMATION

A. Regulatory Information During Current Ownership

1. Has the transferor ever conducted operations on the property which involved the generation, manufacture, processing, transportation, treatment, storage or handling of "hazardous substances", as defined by the Illinois Environmental Protection Act? This question shall not be applicable for consumer goods stored or handled by a retailer in the same form, approximate amount, concentration and manner as they are sold to consumers, provided that such retailer

⁴ Chapter 111-1/2, § 1022.18.

GENERAL NOTES:

1. Contractor will furnish all state and local permits, licenses, fees, etc.
2. All work to be per State and/or local codes governing same.
3. Contractor to furnish all labor and materials necessary to complete all work as shown or better parts and specifications.
4. CONTRACTOR TO VERIFY LOCATION OF ALL UNDERGROUND UTILITIES PRIOR TO SUBMITTING BID AND ADVISE OWNER OF ANY ADDITIONAL COST TO EITHER RELOCATE SAME OR MODIFY NEW WORK TO COMPLY WITH LOCAL CODES IF REQUIRED.
5. Saw cutting to be min. 2' deep around perimeter of all excavations.
6. Contractor to furnish trench shoring and bracing for all excavations. Use of trench shields. Contractor must advise owner prior to shutting down a roadway for change orders to estimated down time. Down time to be held to minimum and electrician should be notified and ready to assist.
7. Safety barricades to be placed around perimeter of all excavations and maintained in good working condition through duration of open excavations. Barricades to be no more than 3' apart from one to the next. If steel plates are used to bridge excavations, then barricades will be placed so as to warn the public of the excavations on either side.
8. All new concrete to be 3,000 psi and 14 min. with rebar with 1/2" from top & 1/4" of 6" wide concrete curb, metal control joints every 20' sq. ft. and spaced. Finish to be 1/2" broom per slope of concrete.
All new curbs to be high early.
9. Contractor to protect all adjacent structures and drives from damage caused to be due to new work.
10. Contractor to patch and repair all damages to exist. Work caused to be due to new work and leave the site in a condition equal to or better than conditions exist prior to commencement of new work.
11. All debris to be hauled from site at time of execution of work. Site to be left broom clean at end of each day worked.
12. All contaminated soils to be handled in accordance with all rules and regulations per E.P.A. regulations governing same.
13. All backfill must be granular and comparable with a power hosi compressor or other device that will adequately compact the backfill to obtain a 95% modified Proctor rating on compaction test.
 - A. Existing backfill material that may be contaminated may be reused if local E.P.A. regulations allow and if it is comparable granular material as noted above.
 - B. Any material such as clay soil not confined to a clay material that is not comparable will not be permitted to be reused regardless of whether it is or is not contaminated.
 - C. Existing materials that is not contaminated and is granular in nature and can be readily remodeled may be reused and compaction as noted above.
